**Ryan  
Haig**

## Summary

I am a heavily motivated young Web Developer with a heavy focus on MERN stack development. After years of self teaching a number of languages and over a year of experience testing numerous React web pages, NodeJS webservices, and both SQL/NoSQL databases, I am ready for the emergence of my web developer career.

---

## Employment History

### CodeWizardsHQ

Instructor (part-time), Austin, Texas  
06/2020 - Present

Teaching highschool level Java, Python, Javascript, HTML, and CSS. All teaching is done 100% remotely using Zoom with students all over the globe
